

The Negroni

Serves 2

Ingredients:

- 50ml Gin (an infused Botanical one is better for some Christmas warmth)
- 50ml Martini Rosso
- 50ml Martini Bianco
- Ice
- 2 slices of orange
- Champagne, Cava or Prosecco for topping up for a longer drink

Method:

1. Before you start, put your bottles of alcohol in the freezer along with your serving glasses. The colder your ingredients are when you start, the less ice you'll need and the less your drink will be diluted. A warm Negroni is not a good thing.
2. Stir all fluids together in a cocktail shaker and pour the mixture into a whisky style tumbler with a big cube of ice. Garnish with a slice of orange.
